## The Qu'Appelle Progress.

Is Published Every Thursday

At The Progress Printing Office, in the Town of Qu'Appelle, Saskatchewan, Canada.

The rates for our advertising space by contract are as follows:

	One week.	One month.	Three months.	One year.
One column.	\$6.00	\$18.00	\$54.00	\$540.00
Half column.	3.00	9.00	27.00	270.00
Quarter column.	1.50	4.50	13.50	135.00
Two lines.	1.00	3.00	9.00	90.00

Business cards 21.00 per month payable quarterly.

The above rates do not apply to special sales, entertainments, theatricals, musicals, social dances, or anything of a transient nature. For such advertisements, 10 cents per line for the first insertion, 5 cents per line for each additional insertion. Yearly advertisements allowed to be charged monthly, if desired. \$1 will be charged for each additional change. Advertisements for 50 cents for first insertion, 25 cents for each additional insertion. The publisher reserves the right to refuse to insert advertisements of a questionable or objectionable character.

Advertisements of Wines, To Let, Land, Acreage, etc., when less than 10 lines, will be charged for 20 cents per line per week. This class of advertising must be paid for in advance.

Subscriber's price: \$1.00 per annum, in advance. 1 not paid for in advance, \$1.50 and be charged. Single copies 5 cents.

A liberal discount will be allowed to parties who are willing to act as agents for us. Write for terms.

FREDERICK BELL,

Editor and Proprietor.

THURSDAY, AUG. 15, 1895.

## PARENTAL CONTROL.

The suicide or murder of a well-dressed, pretty girl, whose body was found in Washington park, New York, and taken to the public morgue a few days ago, has occupied many columns of the New York papers with the story of her identification as Miss Lillian Low, and her strange life history as told by her father, who is connected with the New York money-bag families, conveys a warning to every father and mother. The wreck of young women's lives through the neglect of "the obedience that is taught in a wholesome home life," is a subject which demands the attention of parents, the church, and that great reformer, Enlightened Public Opinion. "One sorrowful side-light is thrown upon the event at the dead-house, where other parents came to see if their absent daughters could be identified. What impulse is it that takes a father or a mother to the morgue when the daughter disappears? Is there, after all, some generally acknowledged but inscrutable relation of cause and effect between the liberty of the daughter and her death? It is too early to say that Lillian Low's death was the result of her own wayward impulses or the result of another's passion. But it is not too early to say again that the best protection from both is not in freedom, but in the obedience that is taught in a wholesome home life. Miss Low appears to have been denied some of the inestimable and necessary restrictions which society has found to be best for girls."

We have had some very fine weather lately, but on Thursday quite a rain set in, which put a stop to haying, of which quite a lot was cut but not cocked. We are afraid there will be a good deal of it spoiled.

A few days ago a very fine pair of red deer was seen grazing on a field of wheat belonging to Robert Aldous. Our marksman would like to have had a shot, but the J.P. lived too near.

Quite a number of our friends took in the exhibition and report a very good show. Both of our post masters visited Regina.

Most of our farmers will need more twine than what they have ordered on account of the heavy growth of grain.

Wheat will not be ready for the binder till the end of the month; it is growing very rank.

## Mountain Fires.

A very serious bush fire was raging this week in the neighborhood of Canyon Creek, B. C., and within the timber limits of the Golden Lumber company. The fire has really been burning for several weeks past, but as it did not amount to anything no attention was paid to it. On Tuesday afternoon, however, it assumed vast proportions and a large quantity of valuable timber was destroyed.

## RHEUMATISM CURED IN A DAY.

South American Rheumatic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. The first dose greatly benefits. 75 cents. Sold by C. E. Carthew, Qu'Appelle.

Don't Tobacco Spit or Smoke Your Life Away

The truthful, startling title of a book about No-To-Bac, the harmless, guaranteed tobacco habit cure that braces up nicotineized nerves, eliminates the nicotine poison, makes weak men gain strength, vigor and manhood. You run no physical or financial risk, as No-To-Bac is sold by C. E. Carthew, under guarantee to cure or money refunded. Book free. Ad. Sterling Remedy Co., 373 St. Paul St., Montreal.

HAVING  
GOOD EFFECT

The Beneficial Results of the Regina Exhibition Are Already Apparent.

Specimens of Products Asked For From All Over—A Few Closing Notes.

Regina, Aug. 12.—A large number of communications have already been received from different parts, making inquiries in connection with the Territorial exhibition here. The Canadian Pacific land authorities at Winnipeg, the manager of the Toronto exhibition, and the secretary-treasurer of the Montreal Industrial exhibition have all written requesting that samples of grasses and cereals be sent to them, and assuring the lieutenant-governor that these would be prominently placed at various points. Today a letter was received from Rev. T. Cartwright, rector of St. Barnabas church, Brooklyn, New York, in which he says:

"I have been interested in reading reports of your exhibition in Regina and beg to ask whether you will kindly aid me obtaining some of your Northwest Territorial specimens for exhibition here. I am proposing to hold in connection with a grand harvest festival, a show in which we may present specimens of products of all the States in the Union, and Canada, and am anxious to get some of the products of your Canadian Northwest as I am not familiar with agriculture and horticulture of that country, and I am of the opinion that it would do the country good to show specimens of what can be grown there. I am sure these will be viewed with great interest." His Honor Lieut. Governor Mackintosh is arranging with Mr. Mackay, of Indian Head, to communicate with the leading men throughout the Northwest to meet the demands of all the parties above mentioned.

## ADDITIONAL AWARDS.

Special prize N. W. M. P. for best gelding, bred and owned in the N. W. T., 15 hands to 15.3. The animals were judged by Commissioner Herchmer and Inspector Brunet, who made the following awards: 1. Quorn ranch, Calgary; 2. J. Forrester, Regina; 3. M. Oxart, Maple Creek; 4. J. Cameron, Regina. The first three prize winners became the property of the N. W. M. P. at \$125 a head, and the last named at \$100, in accordance with the published prize list of the Territorial exhibition. The commissioner was so pleased with the animals that he awarded four prizes and purchased four head instead of two.

Lieutenant Governor Mackintosh with Earl Aberdeen's children—the lads in kilts—attended divine service in the English church on Sunday morning, and the Presbyterian in the evening; after which they proceeded west, their special car being attached to a freight.

The affairs of the exhibition are being rapidly wound-up. Mr. E. W. Read of Qu'Appelle, in charge of the exhibit book has worked like a Turk, has been unremitting in his attentions under very trying circumstances, and has made himself a general favorite all round.

The \$500 for the prairie fire extinguisher has been adjudicated upon but the decision of the judges is not yet known.

The decision on the six prize essays has not yet been arrived at.

## Sudden Death.

Miss T. McIvor of Kildonan, Man., who has been visiting at Mr. J. Smith's, near Qu'Appelle, died rather suddenly on Monday, shortly after 7 p.m. As Miss McIvor has for some time been in poor health this ending was not altogether improbable, but was not looked for so soon. Only a few weeks ago a brother died in Kildonan. The family have the sincere sympathy of Qu'Appelle friends.

## Catarrh Relieved in 10 to 60 Minutes

One short puff of the breath through the Blower, supplied with each bottle of Dr. Acme's Catarrh Remedy, affords this relief over the surface of the nasal passages. Pain less and delightful to use, cures instantly and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Tonsillitis and Deafness. 60 cents. At C. E. Carthew's.

## NOTES BY THE WAY.

"There's a chief among us taking notes. An' faith he'll be a 'tender'."

Broadly speaking, Canadians have "no opinion" of Englishmen located in this country, which means, however, that they have an opinion, and a very confirmed one, which is by no means flattering. A common expression among Canadians is "What can you expect from a bloomin' Englishman?" Which has reference to the manner in which he (the Englishman) goes about his work—that is, work in connection with the farm—indeed, with manual labor generally. Now, if Canadians would only reflect for a moment, before giving vent to their uncharitable opinion as generally expressed, and consider that a large number of Englishmen who come here have everything to learn agriculturally, when they set foot in country of their adoption, they would perhaps be inclined to show more consideration, seeing how heavily handicapped the Englishman is at the start, his avocation in the Old Country having been in a great majority of cases very different from that to which farming necessarily brings into play. "Why do such men come here, then?" may be a question asked, to which there is a full answer: England is over-crowded, while there is room for millions of men here; and it redeems greatly to the credit of those men who have the pluck to come and bear all the privations and hardships of a settler's early life in this country, while endeavoring—against crushing odds in some cases—to establish a comfortable home.

If sloughs are playing out, especially in such a wet season as the present, it is evident that want of moisture is not the cause. One of the reasons for the failure of some sloughs is, I believe, the frequent cutting of them; the plant is shaved off close to the ground and the sun afterwards beating down upon the unprotected roots, causes them to dry up to a very great extent, the plant from year to year becoming weaker and weaker in consequence, until the produce is not worth "a hill o' beans." If such sloughs were left for a season when they begin to fail, the result would in all probability be more satisfactory; in any case, farmers generally would do well to turn their attention to the cultivation of artificial grasses.

The incorrigible punster has been at it again. "Said he, while standing at my door the other day, 'That foolish is in flower now and doing well; if foolish would a slip, you can have one.' If this young man does not put a stop to his word-torturing, he will end by having on his conscience something very similar to a man I know, who was in the habit of saying and writing such funny things that a man actually died of laughter from hearing and reading them."

All that four and a half night  
He watched the wretched man,  
And since he's never dared to write  
As funny as he can.

It's a garment so nice,  
And so cheap at the price,  
You can get it from Beuchamp, J.P.  
"What garment?" in surprise uttered he,  
Why, a shirt 't will make a man in trade,  
And aptly named the shirt negligee.

## Serious Accident.

On Thursday last, while driving near the springs, out south, Mr. E. W. Stewart met with a serious accident. It appears he was driving a team attached to a wagon, and from some cause or other the horses became unmanageable and bolted, throwing Mr. Stewart to the ground, one of the hind wheels striking him on the back. He managed to get to Mr. Percy Jett's place, Dr. Kemp was fetched and it was found that the sufferer had five ribs broken and was otherwise much bruised.

Great Britain's crop is 22 per cent behind last year's yield.

A MINNESOTA  
MONSOON

Sweeps Over a Section of the State Damaging Buildings and Destroying Crops.

A Severe Storm Also Does Damage in Rosser, Man., on Tuesday Night.

Owatonna, Minn., Aug. 14.—A tornado swept over Steel county yesterday, doing much damage. It centered at Belle Plaine, striking that place at 5 o'clock. Railstones from four to six inches thick fell, breaking all glass fronts in the business places and all windows in dwellings, churches and city hall. Smaller buildings were unroofed and overturned. Horses standing on the streets were knocked senseless. The crops in that region were totally destroyed. Culverts and railway rights of way were washed out and trains cannot pass Belle Plaine. The loss cannot be estimated.

## SEVERE STORM NEAR WINNIPEG.

Winnipeg, Aug. 14.—The severe storm which passed over the city last evening did considerable damage northwest of the city, in the municipality of Rosser. The cross for some considerable space is said to be beaten down, and grain stacked in the fields has been blown about.

The worst spot seems to have been the farm of John Haverly, Little Stony Mountain. Mr. Haverly and his men were engaged in drawing hay into his barn when the storm came up. This is one of the most solid barns in the country, being 100 x 32 feet, on stone foundation. They took shelter in the barn from the storm, and when the wind was very high they saw J. Van Potter and H. Sheurits, experts of the Massey-Harris Co., driving up in a buggy.

They opened the barn door to let them drive in out of the storm, when the wind entered and lifted the roof of the structure, setting the whole down in a mass of ruins. A heavy beam struck the horse in the buggy across the withers, injuring it so it had to be shot.

An end of the beam struck Van Potter on the right foot, breaking his leg at the ankle. Mr. Haverly was injured about the head and his son about the shoulders. There were nine horses and a number of cattle in the barn.

Two horses were killed outright and several others were injured. The southwest corner of the barn was moved bodily about forty feet, and this released without hurt a stallion and a thoroughbred bull which were in box stalls in that end.

Van Potter was driven into the city last night and is now under medical care at his boarding place, 372 Elgin avenue. Some other damages were done in Rosser but this appears to be the most serious.

The hay in the barn was blown all over the township and a wagon and hayrack were moved a quarter of a mile. The barn cost \$5,000 some years ago.

Mr. Haverly estimates his loss on it at not less than \$1,800, while his crops will be a total loss.

## Killed Horse and Dog.

What might have been a serious accident happened to the eldest son of Mrs. Burns last week. While driving to the hay camp a bolt of lightning struck the horse he was driving, killing it instantly. The current passed along the animal's body, killing the dog "Echo" which was running just under the rig. The boy was thrown some distance out of the vehicle and was picked up unscathed, but escaped any serious injury.—Macleod Gazette.

## Died in His Wagon.

R. Powell of the Blindman, aged over 60 years, was found dead by W. Henderson, of Penhold, on Saturday in a wagon with a team on the Edmonton trail, about three miles south of Lethbridge. He had a camping outfit and loaded rifle with him. Death was probably due to natural causes. His horses were stuck in the willows near the trail, and the body was laying face downwards on the front board.

## QU'APPELLE PROGRESS.

Thursday, August 15, 1895.

## NOTES OF THE DOMINION.

### HAPPENINGS OF INTEREST PICKED UP HERE AND THERE.

Collected From the Writings of the Dominion and Condensed for the Information of the Reading Public.

Contractor Ryan may build the Danphin road.

Work has commenced on the Calgary irrigation ditch.

A. W. Ross, M. P. for Ligon, denies the rumor of his resignation.

J. M. House, a pioneer of Winnipeg, died at Minneapolis recently.

Calgary competitors at the Regina fair took a large proportion of the prizes.

Leon Ledoux, ex M. P. for Richelieu county, died recently at Sorel, Que.

Brownings: Daniel McLaughlin, Cornwall, Ont.; Dan. Morris, Vancouver, B. C.

Jessie, the 17-year-old daughter of Alex. Gibson, of Waskada, Man., was burned to death.

Regina ministers are strong in their denunciations of the Territorial fair being open on Sunday.

Counterfeit five dollar bills of the suspended La Banque Du Peuple are in circulation in Quebec.

Locke Lucas, who gained notoriety by attempting suicide at Calgary some time ago, is now under arrest for seduction.

Ernest Combs, aged four years, son of R. B. Combs, machinist, was killed the other afternoon at Parkdale by a log falling on him.

N. Courchesne, an employee of the crown lands department, Quebec, has left rather suddenly leaving a number of creditors behind.

J. Ray and J. O. Lambert have been nominated for rector of Macdonald municipality. The vacancy is caused by John Parker's resignation.

John Torrance of the Dominion steamship line, Montreal, was elected to represent the corn exchange on the board of harbor commissioners, until Aug. 1st, 1896.

Capt. John Gaskin, of Kingston, in an interview says he believes Sir Mackenzie Bowell will be the next representative of Kingston in the house of commons.

The directors and shareholders of the Hamilton Iron and Steel company announce that the smelting works will most assuredly be completed and in operation by January 1, 1896.

The report of the result of the teachers' examination held recently is a surprise to all in fact, it is hardly creditable that only 15 out of 120 who wrote for third class have been successful.—Qu'Appelle Advertiser.

Watson Vincent, assistant clerk on the flagship Crescent, aged 18, died at the Halifax naval hospital from injuries received at a game of football. The young man was kicked in the stomach. Interment took place in the naval cemetery.

The Dominion government sold sixty-five cable island ponies at Halifax the other day at prices ranging from \$39 to \$150. These ponies are the natural product of the wild animals on Sable Island. Another lot will be brought up next month.

A blackbird with a white tail has for some days been frequenting the garden in the vicinity of the school house, and may be counting the attention of the high priests of agriculture who are just now instructing the people.—Pilot Mound Sentinel.

Richard McShane, of Montreal, merchant, will be asked by the Conservatives to run for the vacancy for St. Anne division, Montreal in the provincial assembly, caused by the death of Alderman Patrick Kennedy. Dr. Guerin is already in the field as the Liberal candidate.

A. J. Rowbottom, once a prosperous grocer, of Victoria, B. C., suicided recently by hanging. Business reverses and falling health was the cause of the deed. Rowbottom made previously attempt at self destruction by shooting himself through the temple with a revolver about a year ago.

The provincial government have in contemplation the taking of a contour survey of the Boyne marsh at the head of the St. Lawrence river, north of Morris. The object is to ascertain its exact size in case of application being made for draining it. The marsh covers a large part of six townships.

John Whitfield, a machinist of Front street, Toronto, has begun action for \$2,000 damages against the Aikendall Hardware Co., of that city, and Thos. Phillips, shipyard, at bookkeeper, for libel and slander. Whitfield alleges that defendants made misstatements about his business credit and financial standing.

According to the London Times Private Hayhurst's victory at Esley was the most popular triumph in recent years. The Canadians were overjoyed, the Scotchmen were delighted, and—there is a curious thing—the Englishmen were pleased, more especially because Scotchmen did not win. Possibly the Scotchmen have had too good a run of luck in recent years.

While the statement has been made that it is unlikely there will be many changes made by the management of the Grand Trunk railway officials, it is not denied that probable new methods to be adopted may require new men. All of the directors are believed to have very much respect for the methods of Mr. S. J. Seagraves, general manager.

A circular letter, signed by Lieut. Col. Prov. M. P. of Hamilton, is being sent out to the officers and non-commissioned men of the Canadian militia proposing that all unite in presenting a purse or some other testimonial to private Hayhurst as a recognition of his services in winning the Queen's prize at Esley. It is proposed to make the maximum subscription 25 cents.

The colored people of London, Ont., were joined recently in a great celebration of emancipation by their brethren from Detroit, Cleveland and other places. There was a big parade in the afternoon to Queen's park, where speeches were delivered and a band concert was given in the evening. One of the features of the evening was a grand wedding in full view of the gathering.

Rev. Abbe Frolix, vice rector of Laval university, Montreal, is at variance with the ecclesiastical board of the college, and it is reported, has tendered his resignation, which so far, Archbishop Froulx has declined to accept. Abbe Frolix,

it is stated, declines to shoulder certain obligations in connection with the construction of the new university buildings on St. Denis street. Friends are working with the hope of adjusting the difficulties.

The following hailstorms have been reported this year: Between Indian Head and Sinitulata, Assa., doing some damage to grain crops; north of Killarney, Man., doing considerable damage; near Clearwater, Man., considerable damage was done; slight damage was done near Balder. Three or four farmers on Tobacco Creek were also visited by hail a short time ago. The total damage from hail this year is very trifling though a few individual farmers may suffer severely.

The Gladstone Dairy Co., Ltd., made its first shipment of butter on Wednesday. The shipment consisted of 600 pounds. The price received was 15 cents per pound on the car at Gladstone. It was sold to Prof. Barre and was at once shipped east to be placed on the London, Eng. market. Fifteen cents a pound means about ten cents a pound to the patrons of the creamery. This price could not have been realized a few weeks ago, but the price is evidently going up. Ten cents per pound for butter, with no trouble to the farmer either in making or marketing is a very fair price for this time of the year. With five directors and a first class butter maker, such as are in charge of the Gladstone creamery the patrons of the creamery are bound to get the top price for their butter.—Gladstone Age.

Mr. Breiden and party, land examiners for the Canadian Pacific were in Winnipeg last week. They began work north of Carlton, and are proceeding westward. They have to locate half a million of acres of land for the grant made to the Pipestone branch. The decision of the government not to make any more land grants was not arrived at any too soon, and it was a most unfortunate thing for the country that the railway companies were not required to take their land along the line of their roads. Mr. Breiden's objective point is Onion Lake. He reports the country as being watered with the finest springs and spring creeks that he ever saw, with splendid land, a sufficiency of wood, and an unlimited supply of hay, together with a paradise for ranchers. And the Northwest has to give this magnificent domain to build a road in which it has not even a hypothetical interest.—Battleford Herald.

### PARDON IS HIS PRICE.

Convict Allen Will Tell All He Knows of Holmes, But Wants His Price.

It is H. Holmes was seen in his cell in the jail at Philadelphia, by a reporter and talked freely about charges against him, especially those relating to Emily Gargand. He admitted that he had betrayed the girl and that she had afterwards told this to a priest, who insisted that a marriage ceremony be performed. Holmes says that he took her to an obscure place in Minnesota, and married her under an assumed name. The ceremony being fraudulent, Pat Gargand has declared, knew of Holmes' relations with the girl, having found her in his room one night when there was a fire near the "Castle." In May, 1892, the prisoner continued, Miss Gargand left his employ and went into a convent where she now is. Quilman, he asserted, knew all about her and can produce her at any time. Holmes added that in justice to Quilman and "Masco," he desired to say that they knew little about his movements.

Convict Allen, in the penitentiary at Little Rock, Ark., asserts that Minnie Williams was alive six months ago and in the belief that she is alive now. He did not meet Holmes in Arkansas and his connection with him was confined to Fort Worth, Texas. He never wrote any letters to Holmes. Allen declares that the detectives from Chicago will not get anything for their trouble unless they are able to secure his release from the penitentiary. The only place at which Allen met Holmes, he says, was at Fort Worth, and he knows a great deal about his crookedness in that city. "When the authorities come to my terms I will talk and not before. This is all that I will say in regard to the case." Allen, undoubtedly, knows all about Holmes' operations in Texas, but that he knows the whereabouts of Minnie Williams, or that he had anything to do with her disappearance is considered extremely doubtful. When asked if he would parole Allen and under certain conditions pardon him, Governor Clark said the conditions would have to be presented and taken up in legal form before he could return an answer to that question. The chief executive of Kansas would evidently do anything reasonable to assist in clearing up the mystery surrounding Holmes, but he would have to be convinced that Allen's story was not made for the purpose of securing a pardon before he would grant even a parole.

### ITALIANS VS. NEGROES.

The Latter are Shot, Clubbed, and Driven Out of Spring Valley.

The Italians in Spring Valley recently broke out in war upon the negroes with a view of either massacring or driving them out of the city limits. Travelling Lewis, aged forty-five years, was shot in the head and clubbed with rifles. He may die. Many others were shot and clubbed. The Italians for many months have wished to drive the negroes out of the city and have been doing so for some time. A plausible excuse for so doing presented itself. An Italian was waylaid on the public highway by four negroes, robbed and shot four times, from the effects of which he cannot live. A mass meeting of Italians was called, and the mob of over a thousand gathered started out for the negro village, which is located two miles west of Spring Valley. They were headed by the Spring Valley Italian band, and to deceive negroes into thinking the assembly was a peaceful one, the band played the national anthem. The negroes, as a result, remained in their homes. The Italians fell on them like a lot of Apache Indians. The men were dragged out, clubbed, tramped upon, and made targets for shot guns, rifles and small arms which the mob brought with them. The women were insulted, and some of them were being forced to sleep under trees, and in barns, with the exception of a few which farmers are sheltering. Many of the injured are expected to die. No arrests have yet been made.

### Removed From Office.

Charles S. Starbuck, of West Superior, ex-rector of the Church of the Redeemer, elected mayor of Superior last April, was removed from his high office a few days ago by the common council. Seventeen aldermen, out of eighteen voted that the chief executive is guilty of having extorted money from policemen and firemen. The same number of votes impeached him.

## IS PARALYSIS CURABLE?

MR. GEO. LITTLE OF ESSEX COUNTY SAYS IT IS.

He Gives His Own Terrible Experience to Prove the Truth of His Assertion—Suffered for Over Two Years—Both Himself and Family Thought That Only Death Could End His Sufferings—Again Enjoying the Blessings of Sound Health.

From the Essex Free Press.

Life is truly a burden to those not blessed with a full measure of health, and brought to the verge of almost utter helplessness, when doctors fail, and there is apparently nothing left to do but wait the dread summons that comes but once to all, the case assumes an attitude of extreme sadness. In such a condition as this did Mr. George Little, of the town of Colchester, N. B., find himself, and recently the Free Press hearing incidentally that he had recovered health and strength, a reporter was sent to investigate. When seen, Mr. Little expressed a willingness to state the nature of his case, and his story is as follows: Some four years ago Mr. Little suffered from a severe attack of a grippé which left his lower limbs partially paralyzed. He called in one of the best known physicians of Essex county, who appeared to do all that lay in his power for the relief of Mr. Little, but to avail. For two and a half years he suffered the most intense pain and was confined to his bed for the greater part of the time. The doctor was puzzled with his case and as he seemed to obtain no relief, he changed doctors for a period. The second doctor did no better than the other, and Mr. Little returned to the one he had first called in, finally, despairing of ever finding relief, he told the physician that he did not see any further use of taking his medicines, and believed he should die if he did not obtain relief in a short time. He had written away to a little more than a mere skeleton, and was an object of pity by his neighbors, all thought that it was merely a question of time when Mr. Little's death would relieve his sufferings. While his limbs were partially paralyzed he could use them sufficiently to hold the horses in the stable, but if he undertook to walk to the stable he would be confined to his bed for a week or more. His limbs grew numb and cold. During the hottest days in summer he was obliged to sit with his legs and feet in a hot oven, wrapped in flannels and hot cloths until the skin came off in scales. Mr. Little believed that his physician was doing all that could be done, and has nothing but kindly feelings for the treatment he received at his hands but he is certain that the doctor had no hope of his recovery. He had tried an advertised mineral water, and had taken a course of electricity, but failed to obtain relief. After suffering for two and a half years, Mr. Little, in the summer of 1893, read of a case similar to his own, that had been cured by the use of Dr. Williams' Pink Pills, craving at this last hope he sent for a few boxes and began taking them. Before the second box was all used, Mr. Williams was satisfied that he had found a remedy that would cure him of his exceedingly painful and mysterious ailment. Mr. Little continued the use of Pink Pills for several months and was able to get out and do light work about the farm, which he had not been able to do for over two years. He continued taking Pink Pills a while longer, when he was fully recovered and was able to do any of the hardest work on his farm, and in the winter time worked almost steadily at saw logging and wood chopping. During the past fall, he says, he was frequently caught out in heavy rain storms when away from home, but he had so far recovered that his exposures had not brought any bad results. During the very cold weather of the present winter he was hauling wood to Windsor, a distance of fifteen miles. He looks at present as if he had hardly seen a sick day in his life time.

Mr. Little feels deeply grateful to Dr. Williams' Pink Pills and claims that his complete recovery is entirely due to the use of the pills. He gives his testimony for the benefit of others who may be similarly affected. Mr. Little's wife, who was present at this interview, corroborated Mr. Little's testimony and believes he owes his entire recovery to the use of Pink Pills. The entire family look upon the incident as a miracle, and are proud from the grave by the timely use of Pink Pills.

On inquiry among Mr. Little's neighbors, we find that he is a man of undoubted veracity. He has lived in Essex county all his lifetime, and on his present farm in Colchester for nearly forty years. He is the superintendent of the Edgar Mills Sunday school, and his case is too well known in that district to be disputed. His neighbors looked upon his cure as a most miraculous one, his death having been expected among them for many months before he began the use of Pink Pills.

### WILL AID CUBA.

An American to Assist the Cubans With High Explosives.

Thomas Carroll, of Bridgeport, Conn., has gone to Cuba under contract with the insurgents to furnish a large supply of high explosives of which he has the secret formula. "It is cheaper and better for revolutionists to make explosives on the spot than ship them from this country," said Mr. Carroll before leaving. "We can get in Cuba all necessary ingredients. I am to be there six weeks with fifty men. We can blow up millions of the best drilled soldiers in the world. We can burn torpedoes under water and blow ships, and destroy cables. Water dampness does not interfere. Under all roads we can plant explosives. It can be placed in old tomato cans or paper cartridges fired from guns. I do not know how the Cubans have planned the campaign, but with high explosives no generalship is needed, a boy can blow up half the island of Cuba. The revolutionists have given me my price. I am going to provide them with material." From Cuba Carroll will go to San Francisco to meet the agent of the Cuban government. His explosives have been tested by several governments and found to have a very high power.

## HAWAII.

The New Republic Said to be Breaking Up.

Congressman Hilborn who opposed to the annexation of the island to the United States. In discussing the question, he said: "The population consists chiefly of Japanese, Chinese and Portuguese with a small proportion of American or English speaking people. The per cent. of illiteracy is much greater among the whites than among the Kanakas and the perplexing question as to what kind of government and what right of suffrage this country should extend to the island confronts us. The present government is not satisfactory to the majority of the people there, especially the natives. It is practically an oligarchy and the idea of a republic is laughed at. It is not popular and its safety is menaced as it stands. The great mass have no voice except in the election of a lower house. The senate is elected by property holders, who represent but a few thousands of the people and many of the most illiterate that the natives. Much respect is shown President Dole. He is considered able, conscientious and generally liked. The Japanese are most aggressive and most to be feared. They quickly learn the ways, and take every advantage. They have driven many Portuguese to govern themselves, but port everything from Japan and spend little on the islands. The wisest thing this country could do regarding the islands would be to form some close reciprocity treaty which would give them the same advantage our states have and would allow to govern themselves, but of course, be required to put a tax upon all imports from other countries which came into competition with our products. If this is done, and we extend a protectorate over the islands, both countries would derive the benefit of annexation. While allowed to govern themselves, but as things are now going I believe the queen will be restored to the throne before long."

On the question of the Pacific cable Mr. Hilborn said: "It would not pay any private party to build it. I believe, though, that the government would. The Pacific will in some emergency be the rendezvous of the navies of the world and telegraphic communication with Honolulu will be a great saving thus in the handling of dispatches. There would be considerable revenue beside and would vote favorably on the proposition."

### ACCIDENT IN A COAL MINE.

Many Persons Drowned by the Flooding of the Mines.

The Auchen Harvie colliery at Saltcoats, a town on the Bay of Ayr, twenty-four miles southwest of Glasgow, Scotland, has been flooded. Sixty men have been rescued and fourteen are entombed in the mine and it is believed that they have perished. Searching parties have been formed, but are unable to penetrate to the point where the unfortunate victims are. There are many narrow passages and the water is so deep that in getting out of the doomed mine in time. One boy was drowned while venturing into the pit to warn his comrades of their danger. There is a scene of intense excitement at the pit's mouth where the wives, mother and families of the missing men are gathered, waving their hands and giving all sorts of manifestations of grief and despair. Many refuse to give up hope of the imprisoned miners being saved, and their agonizing suspense is no less distressing to see than the loud clamor of those who believe that the men are dead. The men were rescued arrived at the surface in a most exhausted condition and many were resuscitated only with the greatest labor. One of them says that the water rushed like a mill race through the workings, and it was with the utmost difficulty that the men could be rescued. He withstood it. One man who was carrying a brother who had become too much exhausted to make any effort to save himself, was hurled back by the flood so that he found himself utterly unable to make any headway with his burden. He was finally forced to put his brother down and proceed alone.

### A RACE RIOT.

White and Blacks of Alabama in Deadly Conflict.

Details of the race riot at Brookside, Ala., state that in the battle between whites and blacks the other night, several negroes were shot dead. The ranks of the whites were broken by several being wounded. While the miners were caring for their wounded the negroes struck out for the deeper woods. Another posse was formed and headed by determined and stalwart miners the pursuit again resumed. A telegram was telegraphed to Birmingham, Ala., and Sheriff Morrow, with twenty-five of his men have left for the scene. At midnight they came upon the rioters. The whites had captured several of the negroes, but the bigger were not among them. The captured negroes were bound hand and foot and a dangerous march was made to the jail. When Sheriff Morrow arrived and demanded the surrender of the prisoners, his request was received in sullen silence. Another demand was met by a flat refusal from the leader of the white miners. The sheriff threatened to open fire on both parties unless the prisoners were given up at once. Not until the sheriff's men presented arms did the spokesman of the white miners deliver up the captives. They were brought back to camp when another demonstration was made by these miners who had been released from prison. They made a desperate attempt to take the negroes from Sheriff Morrow, but a determined stand by his men deterred them from using force. The camp is in a state of intense excitement and further trouble is feared.

### DO NOT SUFFER.

With Kidney Complaint—You can be Relieved Within Six Hours.

I take much pleasure in stating that I have been using South American Kidney Cure, and found relief within six hours after the first dose. I became sick in January, 1895, when I employed several of the local physicians, and was treated for some time until the fall of 1895, without receiving much benefit. I then began using South American Kidney Cure, and have found great benefit, and am almost, if not quite, cured. Have not been taking any of the medicine for seven weeks, and feel as well as ever. MRS. T. A. BARRISON, P. Q.

### A Sufferer For D. C.

It is understood that the Kansas City Consolidated Smelting and Refining company has decided to erect a large smelting plant at Nakusp in West Kootenay. Representatives of the company have been for some time looking over the district and have decided that Nakusp is the most eligible location. It is understood that the Canadian Pacific railway has done everything possible to secure the establishment of smelters in British Columbia by giving special facilities in the matter of freights on shipments of bullion.

## TO OVERTHROW DOLE.

A MOVEMENT ON FOOT TO RESTORE THE EX-QUEEN OF HAWAII.

The Agents Busy Enlisting Men in San Francisco.—The Plan of Operations Described in Detail—Rudolph Spreckles Said to be Backing the Scheme.

The San Francisco Chronicle prints a story exposing an alleged plot to restore Queen Liliuokalani and her Honolulu, Rudolph Spreckles, youngest son of Claus Spreckles, is said to be backing the scheme. The Chronicle says: One of the best equipped and most dangerous filibustering expeditions ever fitted out on American soil has been discovered in San Francisco. Its object was to take the Hawaiian republic by force of arms, restore to the throne ex queen Liliuokalani, and divide money and goods worth approximately \$6,000,000 among some 200 free-booters picked up by ones and twos in western America. The agent of the conspirators is W. P. Morrow, a native of Connecticut aged 31 years. He is still in San Francisco under surveillance so that the federal authorities can get him if they want to do so. The headquarters of the expedition has been at 711 Bush street, a dingy flat-fronted boarding house. There the agent of the conspirators have been receiving day and night a motley crowd of men, who responded to his cautiously worded advertisement published in the city and elsewhere. The first local intimation of the expedition appeared in an advertisement a few days ago. The advertisement which led to the discovery of the filibustering scheme appeared in a morning paper of Tuesday, July 30th. It read: Timbermen and hunters wanted to escort prospecting party; good pay to good men, state age; fare \$10. Address, Box 55, Examiner office. The Chronicle reporter answered the advertisement and in a few hours received the following typewritten reply: "We want men for an expedition and there will probably be some fighting in the interest of some 30,000 people, with less than fifty thousand to oppose them. We need a small organized body to beat, not exceeding 700, pay, \$25 and upwards per month, according to what you can do, also a grant of enough fruit or coffee bearing land to fix you for life. You will have to furnish rifle and ammunition. If prospects suit you, answer and a meeting will be arranged."

The reporter then arranged an interview with Morrow and called upon him at the boarding house on Bush street. The expedition was discussed and the reporter evinced a desire to join it. "The scheme," said Morrow, "is to restore the queen of the Sandwich Islands to her throne. We will outfit 250 to 300 men from here and take a sailing vessel from this port within ten days or two weeks. We have given out false information as to our starting point, telling people that we were to start from the north to Alaska or some other northern port. The Dole government owns three quarters of the landed property in the islands, and the proposition is that if the expedition is successful to distribute the captured property to the adherents, and send Dole and his supporters out of the island without a cent."

Morrow then detailed the strength and distribution of the government forces, and continued: "The proposition is to capture the five steamers that ply between the islands, and then approach Honolulu and capture the revenue office, and bank of Bishop & Co., there being from \$300,000 to \$500,000 in the revenue boxes and bank. The proposition in regard to the queen is to place her on the throne, as a more figure-head, the head of the revolutionary party to be in control of affairs. Rudolph Spreckles has planted 1,000 stacks of arms, to be used by the revolutionists, on the island of Maui" continued Morrow. "The Spreckles have little use for the provisional government. They could furnish arms to the natives except that the natives could not use them, and to this fact I attribute the failure of the last uprising. In the party that is to leave from here, there are three or four men who are acquainted with every inch of the island. We have an attorney who is giving us advice, and who is to accompany the expedition. His name is Ashford. In regard to the making-up of the party there are 500 men, nearly all come from New Mexico, Arizona and Texas, and most of them are here. The first point after landing will be to take the fire alarm system, and the next point will be to take the telephone system, in order to cut off communication," said Mr. Morrow. "Next will be the police station where there are only about twenty men, whose arms and ammunition are on the upper floors, while the men are down below. Next would be the palace where the Galtins family are stationed on the piazza. We also depend on some of our spies to cripple a couple of the sailing ships. Next we shall take the government building which is guarded by only twelve men. After capturing these points we will leave men to guard them. We think that we ought to capture the city within half an hour as the points are so weakly guarded. At the palace our men will lie behind the fence that surrounds the grounds and pick off the gunners from a place of safety, and as soon as their ammunition had been exhausted, the revolutionists could rush in and capture the guns and gunners."

Hawaiian Consul Wilder, when told of the plot said he had expected trouble of some kind soon. The San Francisco police at first thought Morrow was running a swindling employment agency, but investigation revealed the conspiracy of the nature outlined. In spite of the exposure Morrow was very cool, and said the federal authorities had no terrors for him. He had not committed any overt act and they did nothing except watch him.

If you want God to warm others, ask him to send fire from heaven into your own heart.

Subtly Attached.

Children are often attacked suddenly by painful and dangerous Colic, Cramps, Diarrhoea, Dysentery, Cholera Morbus, Cholera Infantum, etc. Dr. Fowler's Extract of Wild Strawberry is a prompt and sure cure which should always be kept in the house.

No Other Remedy.

No other remedy cures summer complaint, Diarrhoea, Dysentery, etc., so promptly and quietly pain so quickly as Dr. Fowler's Extract of Wild Strawberry. It is a pocket doctor for tourists, travellers, etc.

The pleasures of sin are only pleasures for a season.

Dr. Fowler's

Extract of Wild Strawberry is a reliable remedy that can always be depended on to cure Cholera, Cholera Infantum, Colic, Cramps, Diarrhoea, Dysentery, and all looseness of the bowels. It never fails.

## PROTESTANT AND CATHOLIC CLERGYMEN

Are of One Mind Touching the Remedial Character of Dr. Agnew's Catarrhal Powder.

While Protestants and Roman Catholics are wide apart as to certain remedial measures proposed just now, they find common meeting ground in Dr. Agnew's Catarrhal Powder. Take Hamilton alone. This medicine has been used by Presbyterians like the Rev. Mungie Fraser, D. D., and Rev. John Scott, D. D.; by Episcopalians with the Rev. W. H. Wade, and Rev. Chas. Whitehouse; by the well known Baptist Rev. G. Anderson; by prominent members of the Methodist church, and by the Rev. Father Hinchey, and many of his parishioners. They all tell the one story of the great good this medicine has done them. The same story has come from the most prominent clergymen in Toronto and elsewhere. It is unlike any other catarrhal remedy, simple, easy and pleasant to take, and quick in a cure. It will give relief within ten minutes in Hay Fever. Sold by all druggists. Sample Bottle and Blower sent on receipt of two 3 cent stamps. S. G. Detchon, 14 Church street, Toronto.

It is not what a man has but what he hopes for that makes him happy.

## DIZZINESS IN THE HEAD.

This is a Sure Precursor of Apoplexy, and Dr. Agnew's Cure for the Heart Should at Once be Taken.

No one can read the daily papers without being seriously impressed with the fact that a large number of people in the present age have within their system the evidence of apoplexy. This is seen and felt often in a trembling and uncertainty of the limbs, and from time to time an unpleasant dizziness and lightness of the head. He is a very unwise man who, knowing these symptoms to exist, does not promptly take measures to have them removed. We know of no remedy that has been so remarkably successful in this respect as Dr. Agnew's Cure for the Heart. Primarily it is a heart cure but it is equally effective in what is to some extent a parallel disease, apoplexy symptoms. In a season when unusual heat prevails and excitement often runs high, we are doing a kindness to men and women by letting them know of this remarkable medicine.

He that is unwilling to receive, as well as give, has learned but half of friendship.

DEADLY CANCER CURED BY B. B. B.

Here is the Proof.

Messrs. T. Millburn & Co. Srs.—About four years ago I was taken sick with stomach trouble. I consulted several leading local physicians, all of whom pronounced my disease incurable cancer of the stomach, and told me I had not long to live. Two physicians attending me gave me up to die. Through reading your advertisements, and by advice of friends, I tried your Burdock Blood Bitters and am happy to say that after using one bottle I was able to leave my bed which I had been confined to for a long time. I am thankful now to state that B. B. B. cured my disease which baffled the doctors, and I am firmly convinced that B. B. B. saved my life.

Gratefully yours, ELIZABETH GILHULA.

South Buxton, Ont. N. B.—Mrs. Gilhula is the wife of the Post Master at South Buxton, and will gladly answer inquiries.

Man places himself higher than money, but he prefers to have the latter laid up.

A Family Suffers for Want of a Mother's Attention.

Mr. Neil Morrison, St. John, N. B. "My daughter, Mrs. Gregory has had rheumatism so bad during the last year that she was unable to help her children or attend to her household duties. Everything imaginable was tried but to no purpose. I was at last recommended to get South American Rheumatic Cure. One bottle cured by daughter within four days, and I take much pleasure in giving this recommendation."

### Qu'Appelle Observatory.

Reading of the thermometer for the week  
ending Tuesday, Aug. 12, 1896.

	Maximum	Minimum
Wednesday, Aug. 7	84	52
Thursday, Aug. 8	69	59
Friday, Aug. 9	69	44
Saturday, Aug. 10	69	42
Sunday, Aug. 11	71	44
Monday, Aug. 12	81	49
Tuesday, Aug. 13	69	52

### Local and General

—Mr. S. Edwards, Indian Head, was in town on Sunday.

—Mr. J. H. MacCaul returned from Winnipeg on Tuesday morning.

—Mrs. F. Travis, Elkhorn, is on a visit to her parents, Mr. and Mrs. W. Broley.

—Rumors are floating around of the possibilities of an elevator being erected in Qu'Appelle, after all.

—Mr. R. Jelly, late assistant-postmaster, has been engaged as teacher at Starr's Point school.

—Mr. A. V. H. Coles, Montreal, was in town on Monday, revising the insurance chart of the town.

—Where did the United States governors, who were to visit the Territorial Exhibition, hide themselves?

—Mr. R. B. Gordon, secretary of the Territorial exhibition, Regina, is asking for tenders for 2,000 cuts, in lots of 100 or 200, or for the whole lot.

—Judging from the number of self-funders that leave town from the different implement yards every day, the faith of our farmers in a good crop is unbounded.

—At a meeting of directors of the Indian Head Agricultural society, held Aug. 13, it was decided to hold the annual exhibition at Indian Head on Oct. 2.

—Great anxiety prevails just now as to the probability of frost, so far we have escaped, and it is expected that another ten days of such weather as we have been having will render everything safe.

—Procrastination is indeed the thief of time, as those who have delayed ordering their binding twines are now finding out to their cost, by experiencing the utmost difficulty in obtaining a sufficient supply of that commodity.

—Rob Barclay, who has replaced Mr. Bias as representative of the Standard Oil company, spent Sunday and Monday in town. Mr. Barclay is not a stranger to the country, having represented the same company some six years ago.

—Foster, the weather predictor, says: Aug. 17 to Aug. 23, Sept. 15 to Sept. 25, Oct. 13 to Oct. 20 and Nov. 12 to Nov. 18, are dates when severe, dangerous, destructive storms may be expected, more particular details of which will be given in future bulletins. Closely following each of these storms frost will go unusually far south, and corn and cotton will be damaged to some extent.

—We are sorry to have again to remind our readers that a newspaper cannot be run on nothing. Accounts due to this office are now being made out and will at once be sent out, when it is hoped they will be met promptly. A glance at our star column will show what the

law is with regard to newspapers. One thing we would like to point out is, that a person cannot order his paper stopped, while in arrears without paying up, and that the full amount can be recovered by law.

### COUNCIL MEETING.

There being no quorum present on Monday, Aug. 5, at 10 a. m., the council stood adjourned.

Minutes of an adjourned meeting of the Council of the Municipality of South Qu'Appelle, held in the council chamber on Monday, Aug. 12, 1896.

The Reeve and Councillors Raymond, Hicks and Cates were present.

Minutes of last meeting were read, and on motion adopted. A petition was received and read from Wm. Brown and thirty-eight other ratepayers, praying to have that portion of the Wood Mountain trail which crosses the southeast quarter of sec. 4, tp. 17, range 16 closed, and to utilize the road allowance on the east and south side of said section for traffic.

Reports and returns were received and read from overseers of road divisions Nos. 3, 4, and 5.

Noxious Weed Inspector Spierling presented his report, which was read and filed.

The meeting was then adjourned until 1:30 p. m.

The council resumed pursuant to adjournment, with the reeve in the chair, Councillors Hicks, Raymond, Cates and Smith being present.

The treasurer's report was received and read. John Tate, noxious weed inspector, presented his report, which was read and laid over until next meeting for further particulars.

Communications were received and read from General Superintendent Whyte, J. R. Neff, and Johnston & Jones, which were referred to council.

The following accounts were received and read: J. B. Robinson, work on cemetery fence, \$24.65; Dr. C. E. Cartwright, professional services, \$8.75; J. P. Beauchamp, cemetery supplies and postage, \$4.25; J. M. Gray, filling hollow near council chamber, \$10; Stewart Mitchell, work completing road, \$18; J. H. MacCaul, lumber, \$58; which was referred to finance committee.

Smith—Hicks—That the noxious weed report of A. H. B. Spierling be received and approved. Carried.

Raymond—Smith—That the road overseer's report from A. Matheson be received and approved. Carried.

Cates—Smith—That the two days statute labor tax paid by J. C. Karst for last year, be refunded, as it was proven that the work had been performed. Carried.

The finance report was read as follows:

We, your committee on finance, assessment and safety, beg to report as follows:

The treasurer reports the following funds on hand, viz: School District No. 2, \$13,200; No. 39, \$149,900; No. 61, \$5,800; No. 174, \$12; No. 327, \$17,080; mill bonus fund, \$17,680; town improvement fund, \$16,667; general municipal fund, \$27,272; statute labor fund, \$10,850; total, \$244,433.

We would recommend the payment of the following claims: Stewart Mitchell, extra road work, \$18; John M. Gray, \$10; J. P. Beauchamp's account, \$4.25; Dr. Cartwright's medicine and attendance, \$8.75; J. B. Robinson, work on cemetery fence, \$24.65; J. H. MacCaul, lumber, \$58; J. Young, ditto, \$2.50; Donald Fraser, ditto, \$2.50; John & Jones' account, \$16.67; clerk and inspector, salary for July, \$14.50; that Weed Inspector Tate's report be laid over until next meeting; A. Matheson, Jr., road overseer, salary, \$58; cash supplied by A. H. B. Spierling for erecting weeds, \$13; A. H. B. Spierling, salary as noxious weed inspector, \$29; Cowan & Edwards, on account of cemetery, \$75. All of which is respectfully submitted.

(Signed,) A. RAYMOND, Acting Chairman.

Raymond—Hicks—That the finance report as read be received, the recommendations therein contained be concurred in and reeve and clerk authorized to sign checks.

Awarded Highest Honors—World's Fair.

**DR. PRICE'S CREAM BAKING POWDER**  
MOST PERFECT MADE.  
A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant.  
40 YEARS THE STANDARD.

in payment of the several claims. Carried.

Cates—Smith—That the communications from Johnston & Jones, Fred J. Young, deputy clerk, and J. R. Neff be filed. Carried.

Cates—Smith—That the clerk be instructed to have the collector's roll ready to deliver to the collector by the first Monday in October next. Carried.

Smith—Raymond—That David Scott be paid \$6 for destroying noxious weeds on sec. 3-20-16, and the clerk be instructed to charge the same to the land. Carried.

Smith—Raymond—That the reeve be appointed a committee to employ W. T. Thompson to survey certain portions of Wood Mountain trail, and after the said survey is completed the reeve be authorized to call a special meeting of the council on bylaws. Carried.

Cates—Raymond—That the clerk write R. B. Gordon that the council are in receipt of a petition signed by at least nine-tenths of the resident ratepayers in the vicinity, praying to have that portion of the Wood Mountain trail closed where it crosses sec. 4-17-14, and that the council intends passing the necessary bylaw as soon as the surveyor hands in his report. Carried.

Smith—Cates—That this council do now adjourn, to meet again on Monday, the 7th day of October, 1896. Carried.

### Edgely Echoes.

(From Our Own Correspondent.)

We cannot but half console with some of our unfortunate trustees over their disgrace in the late lawsuit. The settlement is under arms, yet your correspondent considers that the depression and burden of a heavily-weighted conscience from which our friends must have suffered, ought to be enough to satisfy the wrath of the ratepaying community, yet it does not seem to be so. Let us hope the wretched men will reconsider matters and remember how easily fickle minds are played upon when the ingenious tempter is on the warpath.

Still no Progress has arrived, and considerable anxiety is felt among our friends as to the whereabouts and welfare of our worthy editor, surely by this time he will have recovered from the fatigue of the fair.

Last week's weather was very cool and wet for the season of the year, but we happily pulled through it all beyond the probably needed wetting of a few shirts.

### Sinistrala Slifings.

(From Our Own Correspondent.)

On the morning of Tuesday, 6th inst., there departed this life, Miss Lydia Patridge, daughter of John E. Patridge, Esq. This estimable young lady was widely known and universally admired for her amiable disposition and Christian character, and her loss will be deeply felt. Deep sympathy is extended on all sides to the sorrowing relatives in their affliction. The whole neighborhood showed their respect for the memory of the deceased lady by following the remains to their last resting place in Sinistrala cemetery.

George Clark of Spring Coulee, captured the first prize for working oxen at Regina fair. Good for George.

Mr. John Carpin and family have returned to the settlement. He has built a new house on sec. 20.

### New Patents.

The following list of United States patents, granted to Canadian inventors, July 19 and 23, 1895, is reported expressly for this paper by James Sangster, Patent Attorney, Buffalo, N. Y.

Alex. Dobson, Beaverfoot, Ont., cleaning attachment for dust-collectors.

Edward Gurney, Toronto, boiler.

Eden Perkins, St. John, N. B., machine for making horseshoe-nail blanks.

Robert P. Scott, Cadiz, Ohio, and J. A. Chisholm, Oakville, Ont., cleaning green peas.

David T. Baxter, Hamilton, Ont., autographic register.

Thomas J. Byers, Eganville, Ont., carrying case.

Augustus A. Davidson, Victoria, B. C., device for baby-food regulators.

Robert G. H. Dillon, Long Point, Ont., hand-wheel cultivator.

Henry M. Dinning, Montreal, sash-fastener.

Grace H. D. Harris, Toronto, rug fastener.

Joseph Lachance, St. Francois, Que., nut lock.

Gedon Pictard and V. Guinet, Montreal, high or low water alarm for steam boilers.

### Directions to Correspondents.

1. Be brief and to the point. Life is short, and please remember we wish to give other correspondents a show.
2. Write plainly and only on one side of paper. This will prevent you (unintentionally) sending the compositor to the "devil."
3. As time is hard only use a one-cent stamp; do not seal the envelope, but just turn in the flap.
4. When you are out of paper and envelopes write for more.
5. Write as often as you can—once a week anyway; and so that we may receive copy and later than Monday night or Tuesday morning.
6. Send nothing but news. Unfactual gossip cannot be admitted to the columns of the paper. If anything happens in your vicinity, such as a birth, marriage, death, accident, school or church event, arrival of a new lot of goods or your neighbor's in fact anything of local interest, send it to The Progress. If you are not accustomed to write for the press we will revise it.

### Law Regarding Newspapers.

1. Any person who takes a paper regularly from the post office, whether in his name or another's, or whether he has subcribed or not, is responsible for payment.
2. If any person orders his paper discontinued he must pay up all arrears, or the publisher may continue to send it until payment is received.
3. The editor has no right to publish the whole or any part of a letter sent to him unless the writer consents to its publication.
4. In suits for subscription, the suit may be instituted in the place where the paper is published, although the subscriber may reside elsewhere.
5. The editor has no right to refuse to publish or to remove or leave them unaltered for while unpaid, it is prima facie evidence of libelous intent.

### BRISTOL'S PILLS

Cure Biliousness, Sick Headache, Dyspepsia, Sluggish Liver and all Stomach Troubles.

### BRISTOL'S PILLS

Are Purely Vegetable, elegantly Sugar-Coated, and do not gripe or sicken.
